Zoom Commercial	X					X	X	Public			X		https://zoom.us/
Notes													
Capabilities available via normal network connectivity are available through VPN access. AFNET VPN use requires a government provided computer. As additional capabilities become available for home or mobile use they will be advertised, and this matrix will be updated. Please contact your local communications support for additional information on these capabilities and the services available through them. * = with BUEM installed. ** Not supported by your Communications Squadron or endorsed in any way by the US government; work directly with the resource's support team for assistance.													
									IL5 - Approved for FOUO, PII, HIPPA, CUI				
									IL4 - Approved for PII and FOUO, not National Security information				
									Fed Ramp Moderate - Allows some CUI and PII, info not intended for public release				
									Publicly Releasable Information - Only Use for Fully Unclassified
