RECYCLED: Lead Acid

Lithium Ion & NiCad are Universal Waste* 90-day turn-in timeframe to building 400 *****

VICTORY BEGINS HERE!

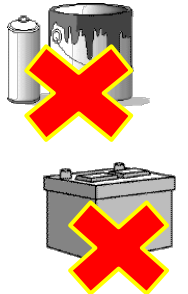

Community Dumpsters – Do YOUR part!

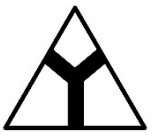

The area around the dumpsters **MUST remain free of trash or items** that may interfere with the placement of the dumpster

VIOLATIONS prevent the dumpster from being emptied.

Ex. Items sticking out of dumpsters.
Pieces of wood must not be stored inside.
This can damage equipment!

VICTORY BEGINS HERE!

Which Batteries Can Go in the Trash?

A

A. AA, AAA, C, D & 9V batteries can go into the trash

B

B. NiCad are batteries and must be managed as Universal Waste

C

C. Lithium batteries are Universal Waste

Light Bulbs

FACILITY MANAGERS

DON'T TRASH FLUORESCENT LIGHT BULBS!

Take them to a Universal Waste Collection Center or Recycle Compact Fluorescent Lamps at a participating retail store.

Your Local Universal Waste Collection Center is:

Recycling Center
BLDG 400

Fluorescent light bulbs contain mercury and cannot be disposed of in the trash.

Hg

This symbol on a bulb or package means that bulb contains mercury. For safe disposal options, call 1-800-452-1942.

Fluorescent Bulbs Contain Mercury!

Fluorescent bulbs are considered Universal Waste and managed under the Hazardous Waste program

- Same day turn-in unless approved by 97 CEIE to store
- Approval by the 97th CEIE to collect UW onsite must be obtained in writing. **Facility Manager** is responsible for collecting UW for their facility must complete UW training provided by 97 CEIE.
- Lamps that use mercury:
 - Common fluorescent lamps
 - Metal halide lamps
 - High pressure sodium lamps used for floodlights
 - Streetlights

- Call 481-6198 for pick ups of approved storage containers
