MEMORANDUM FOR

FROM: 97 MDOS/SGOW

SUBJECT: Report for Random Drug Testing

1. Executive Order 12564, Drug-Free Federal Workplace, provides that Federal employees are required to refrain from the use of illegal drugs and that the use of such illegal drugs whether on duty or off duty, is contrary to the efficiency of the service. This is to inform you that the following employee/s has been selected for drug testing. Please direct the employee by indorsement to report for between 0700-1200 and 1500-1630 today. All notifications must not be made more than two hours prior to testing. You should personally meet with the employee and advise the selection was purely random and the employee is under no suspicion of using illegal drugs. The employee should also be informed that they would have the opportunity to submit medical documentation that may support a legitimate use of a specific drug. **DO NOT** reproduce this letter providing individual personnel data (name, SSAN, DoD ID) to other personnel. The endorsement below should be prepared on a separate letter and given to each individual selected to test unless other individual data (name, SSAN, DoD ID) can be completely blacked out.
2. Employees refusing to test may be subject to the full range of disciplinary action, including removal. An employee selected for random testing may obtain a deferral of testing. If their first-level supervisor concurs that a compelling need necessitates a deferral on the grounds that the employee is on leave status away from the test site, or scheduled to begin travel prior to testing notification.
3. The signed original copy of the letter should be placed in the employee's record and a copy given to the employee to bring to the testing site. Please e-mail (Christopher.Baumgardner.1@altus.af.mil) the randomly selected employees unavailable for testing not later than 1000 hrs of the testing day with the reason for his/her unavailability, due back date, and or what shift the individual works. Separate arrangements will be made for shift workers by calling the Demand Reduction Office at 481-5998.
